Experiment 1: Basic Cellular System

Question 1. Use Figma to create an interactive diagram illustrating the components of a basic cellular system.

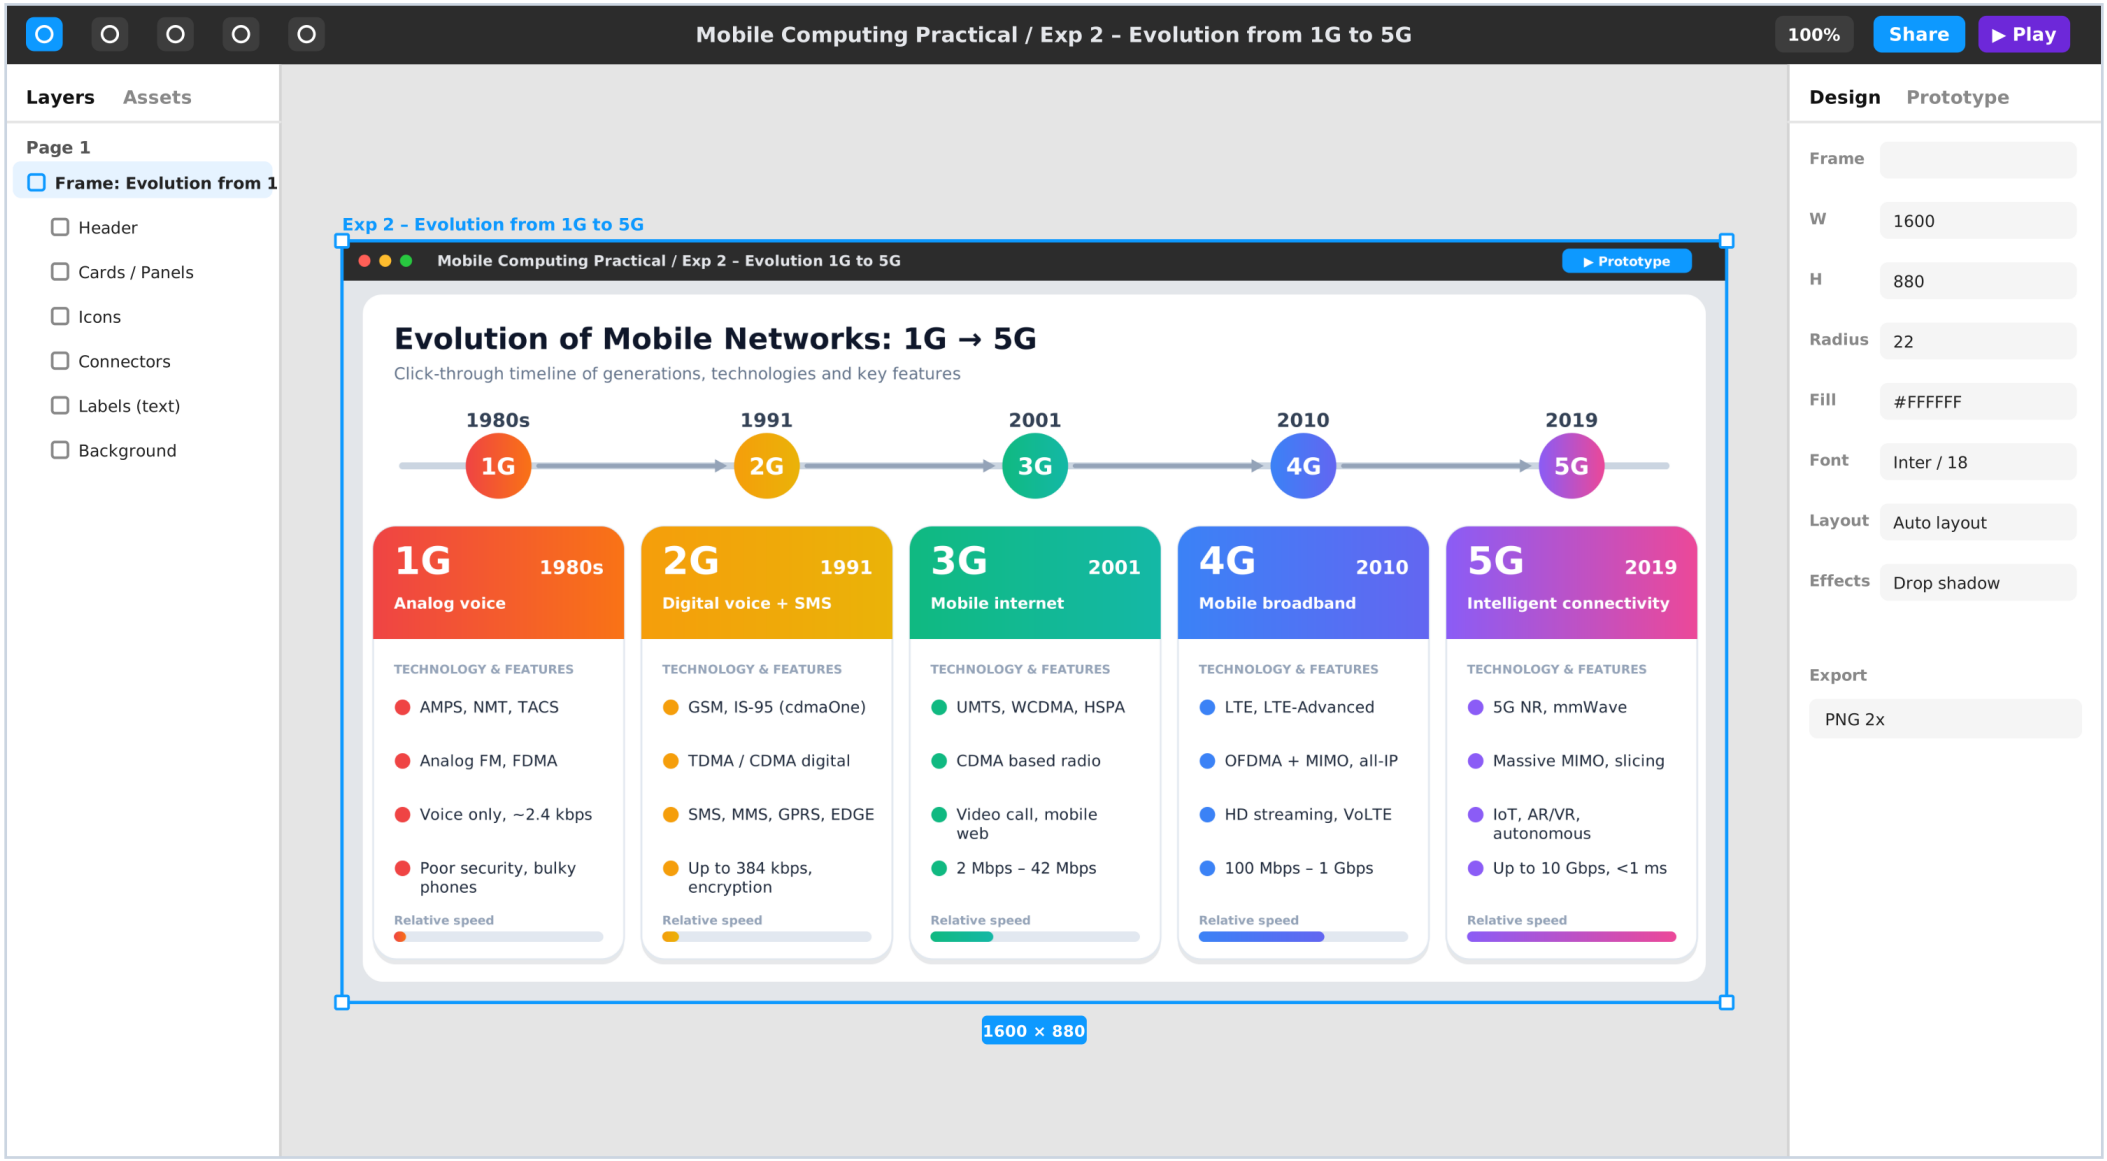

Output (screenshot of the design in Figma):

Experiment 2: Evolution from 1G to 5G

Question 2. Use Figma to create an interactive diagram illustrating the evolution from 1G to 5G.

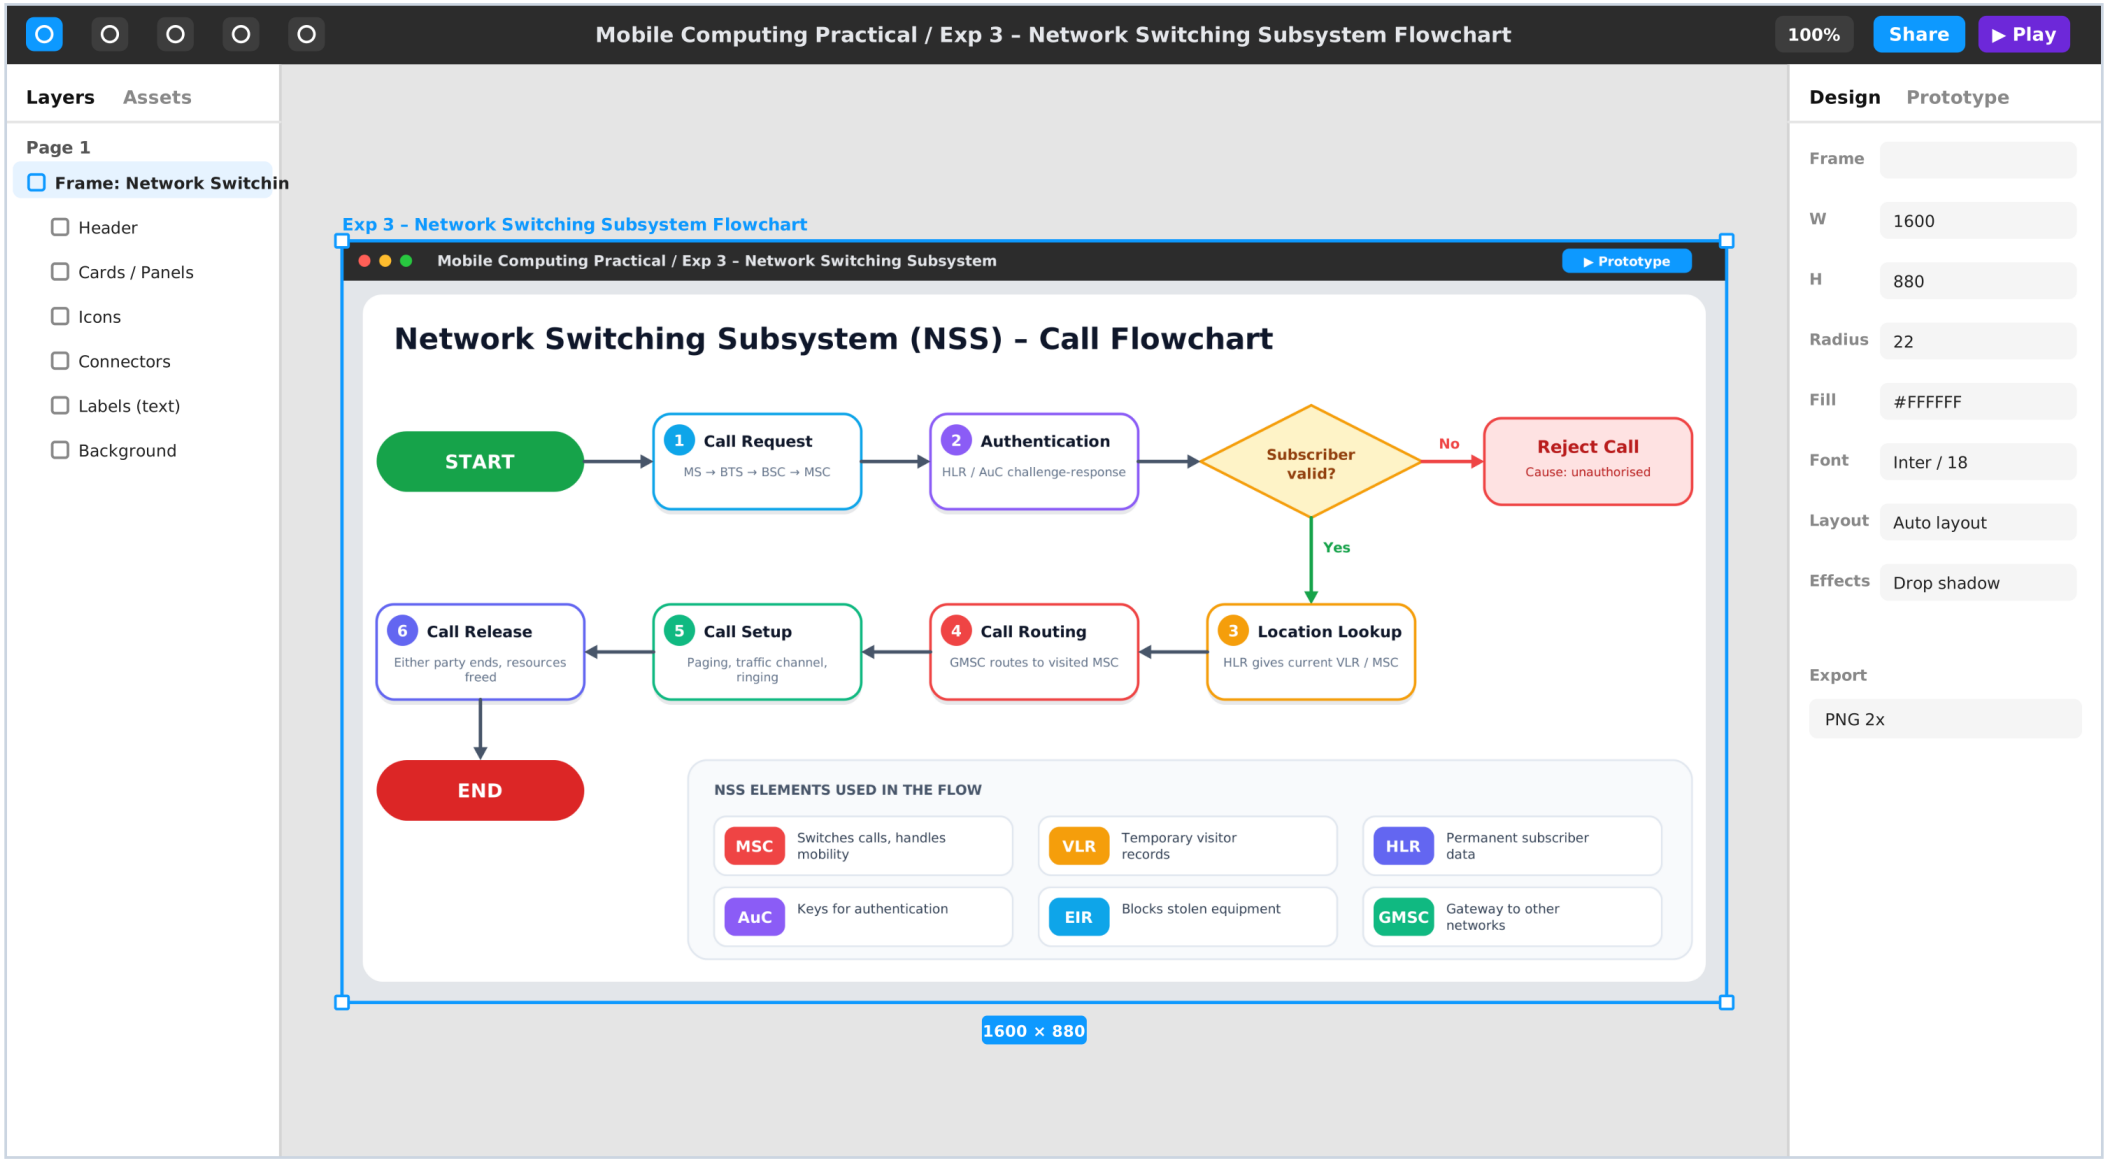

Output (screenshot of the design in Figma):

Experiment 3: Network Switching Subsystem Flowchart

Question 3. Develop a flowchart in Figma depicting the operation of a Network Switching Subsystem in a mobile cellular system.

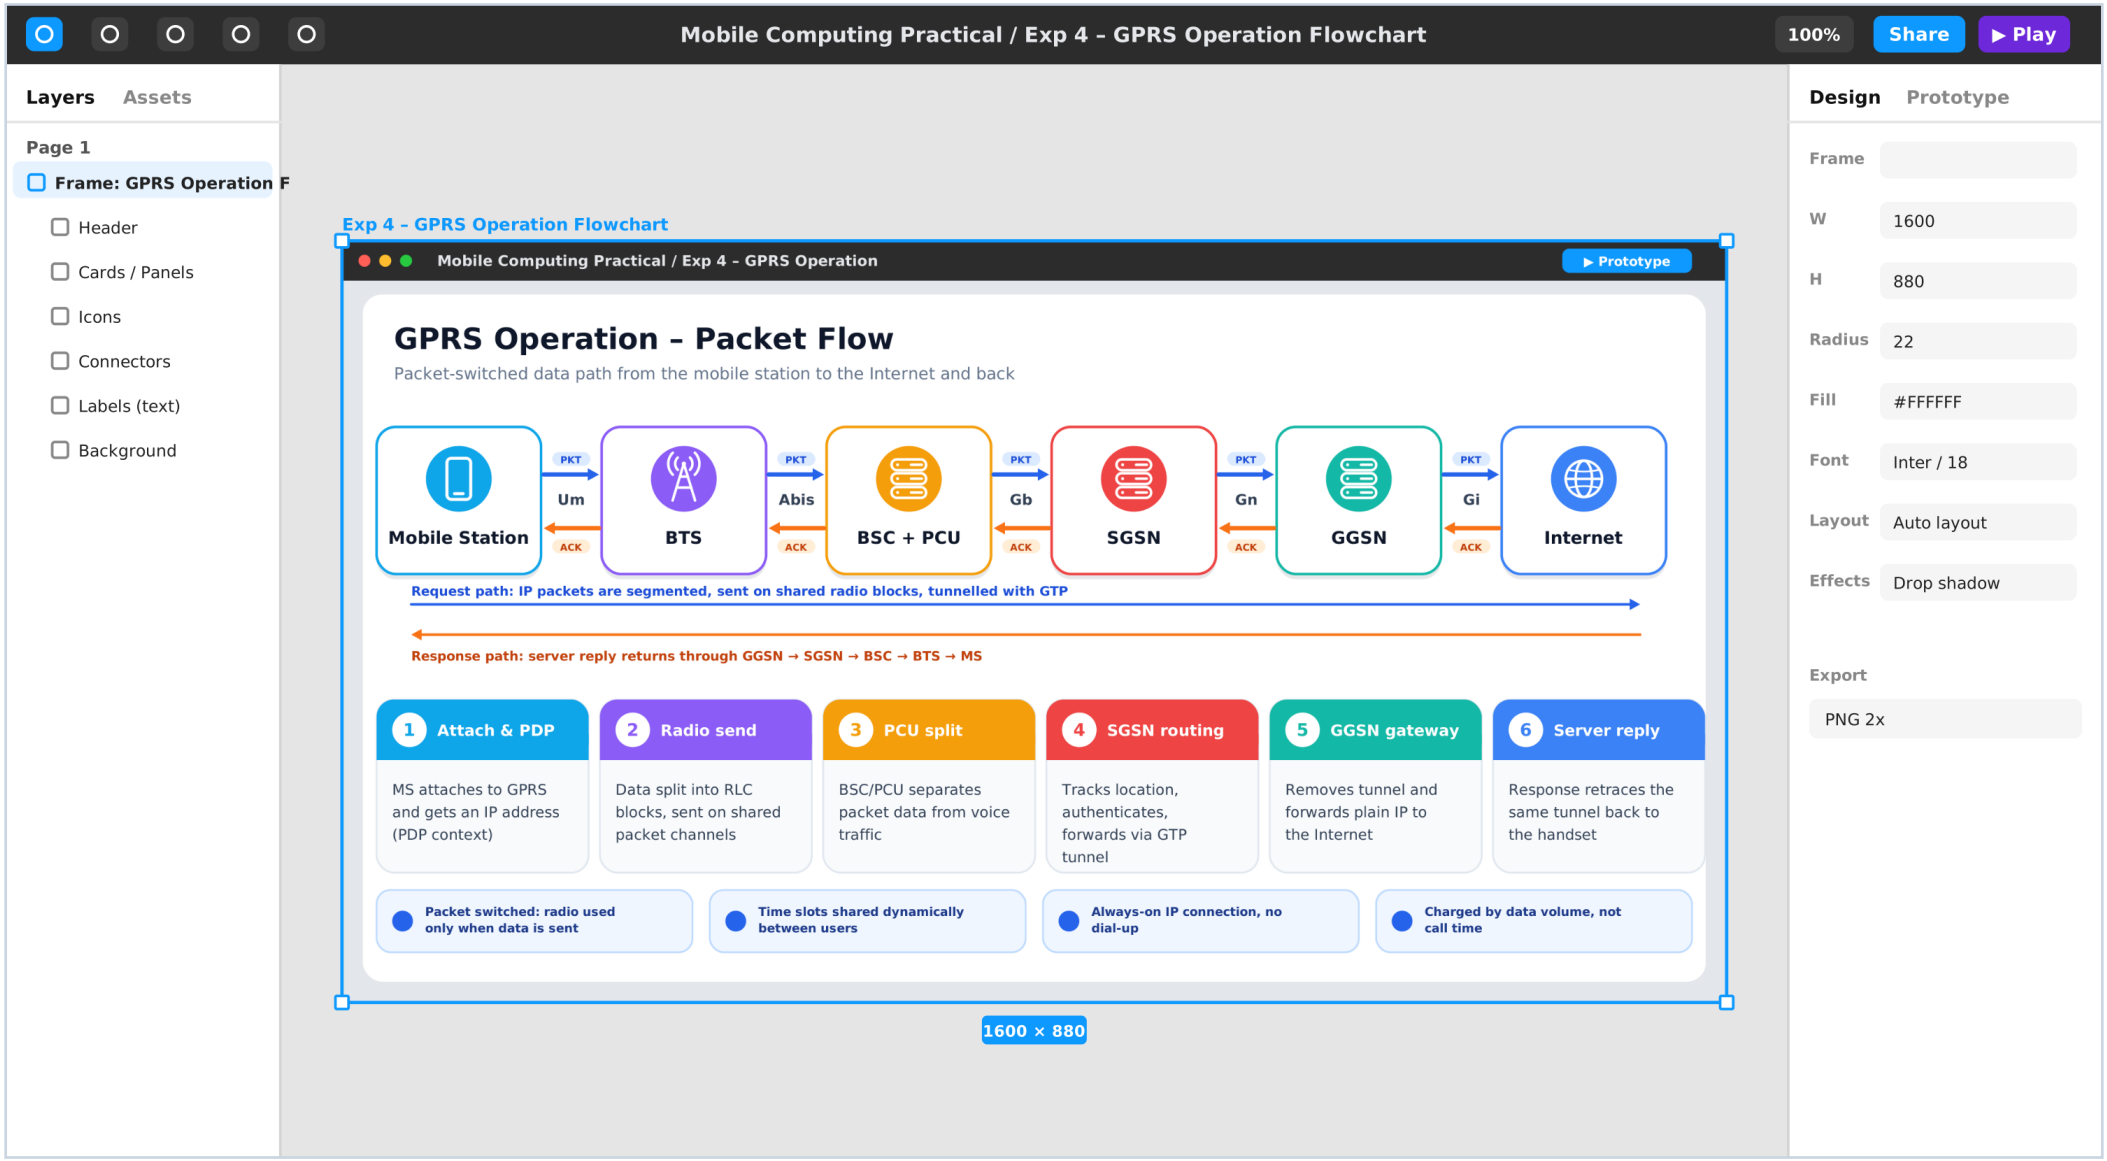

Output (screenshot of the design in Figma):

Experiment 4: GPRS Operation Flowchart

Question 4. Develop a flowchart in Figma explaining the operation of General Packet Radio Service (GPRS).

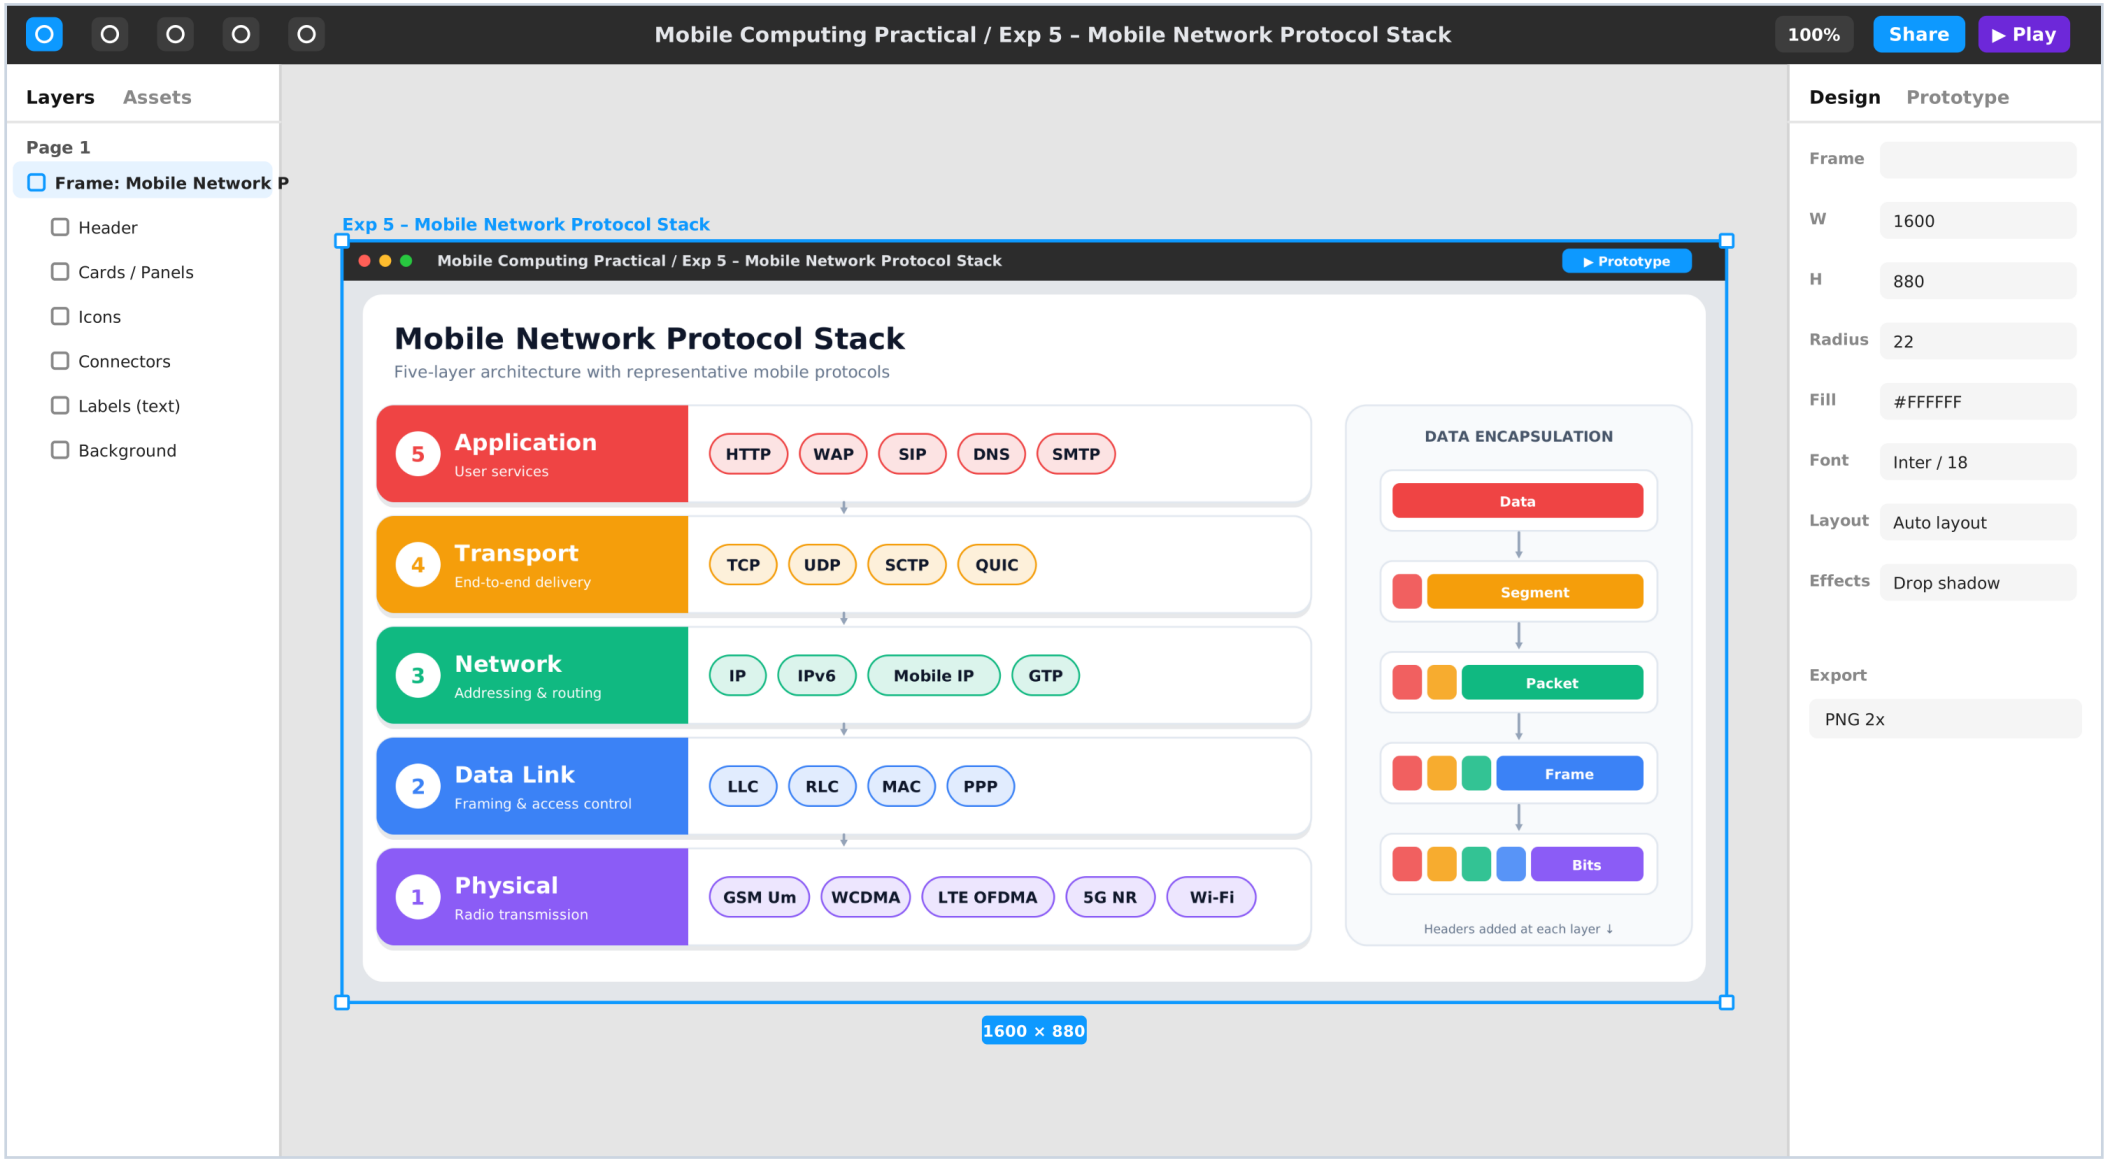

Output (screenshot of the design in Figma):

Experiment 5: Mobile Network Protocol Stack

Question 5. Create a visual representation in Figma highlighting the key elements of mobile network protocol stacks.

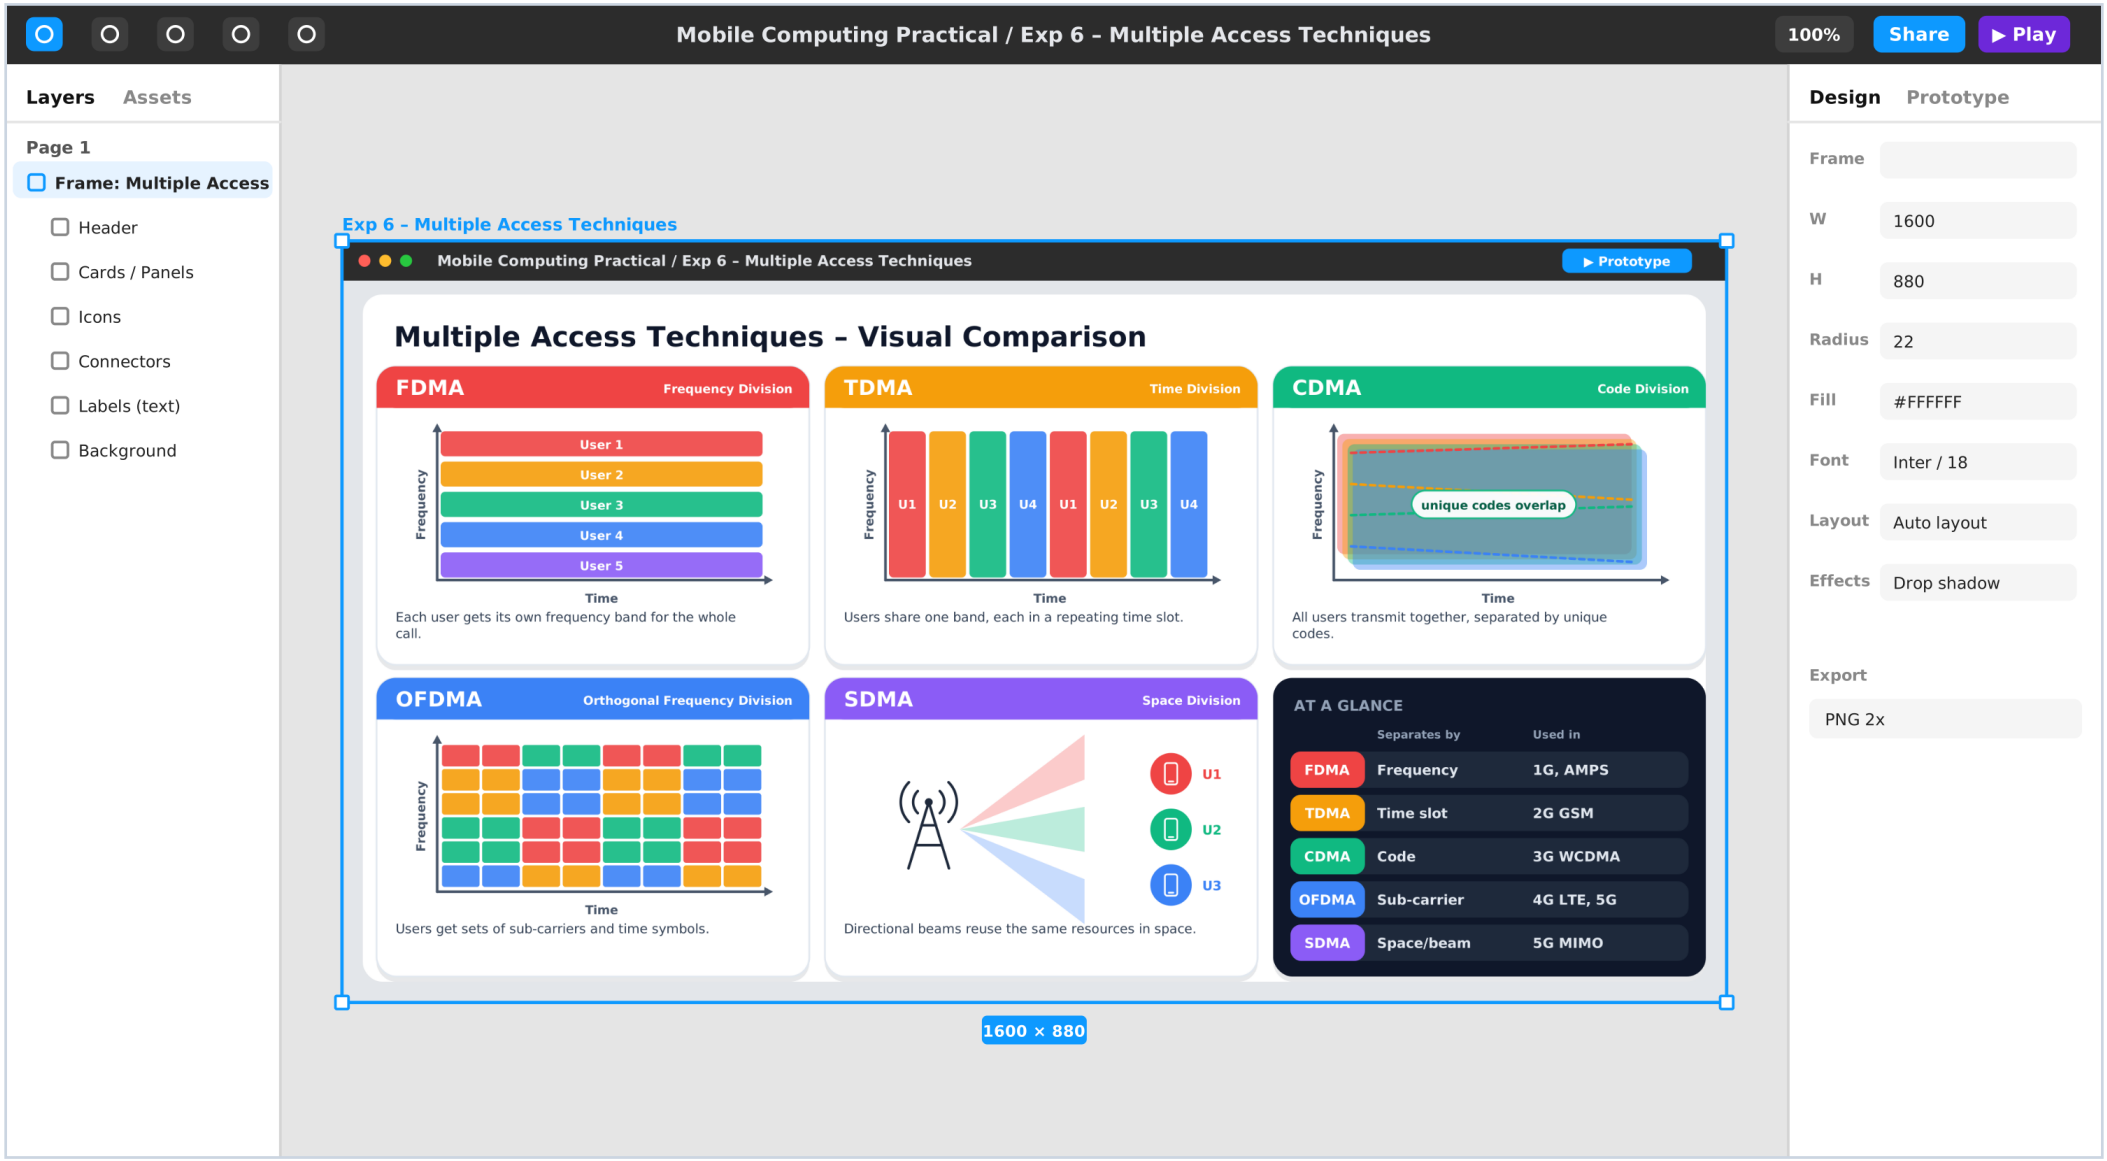

Output (screenshot of the design in Figma):

Experiment 6: Multiple Access Techniques

Question 6. Create a visual representation in Figma showcasing the differences between various multiple access techniques.

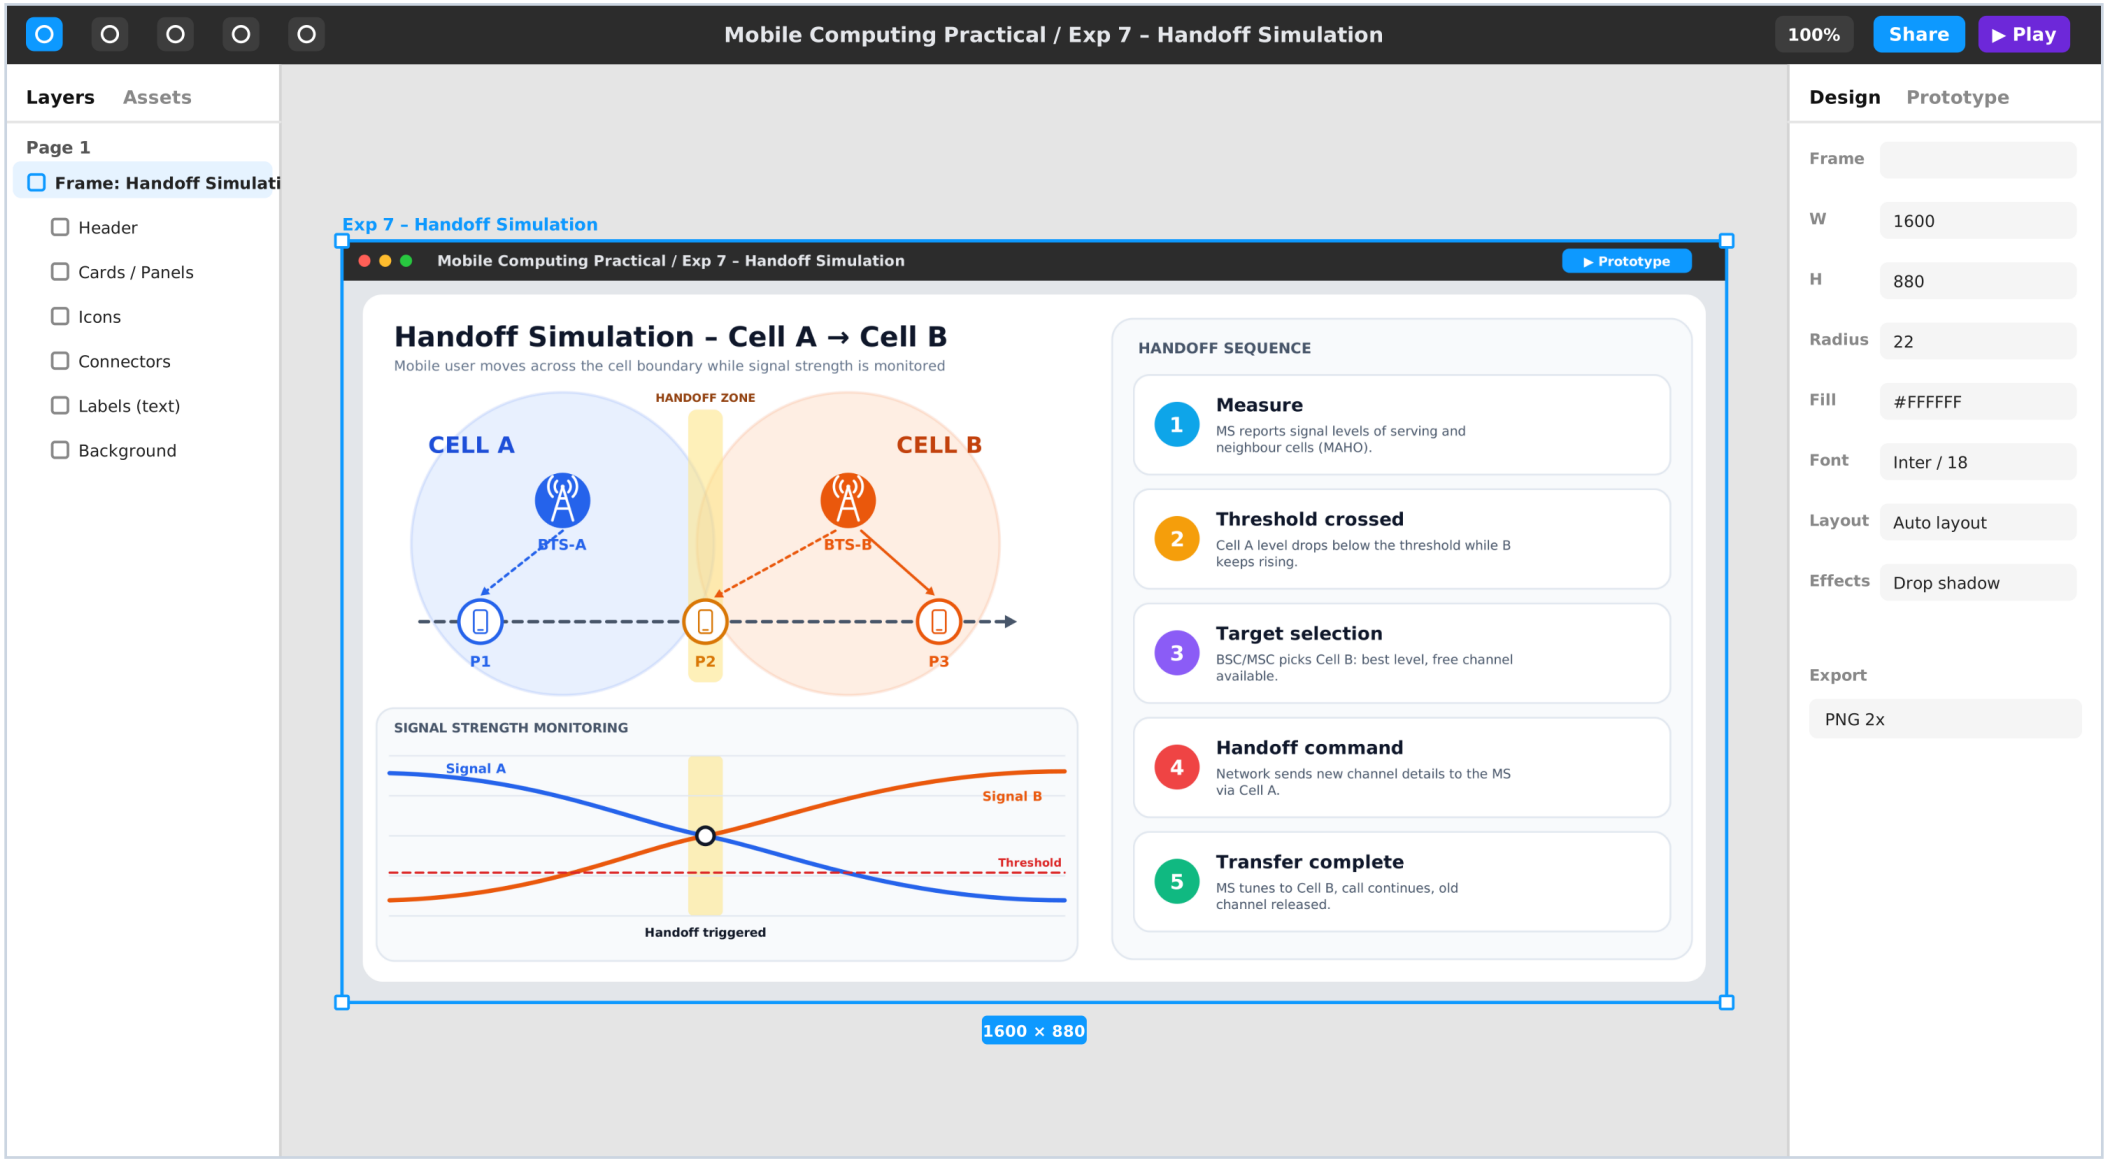

Output (screenshot of the design in Figma):

Experiment 7: Handoff Simulation

Question 7. Use Figma to simulate a handoff scenario in a mobile network and visualize the process.

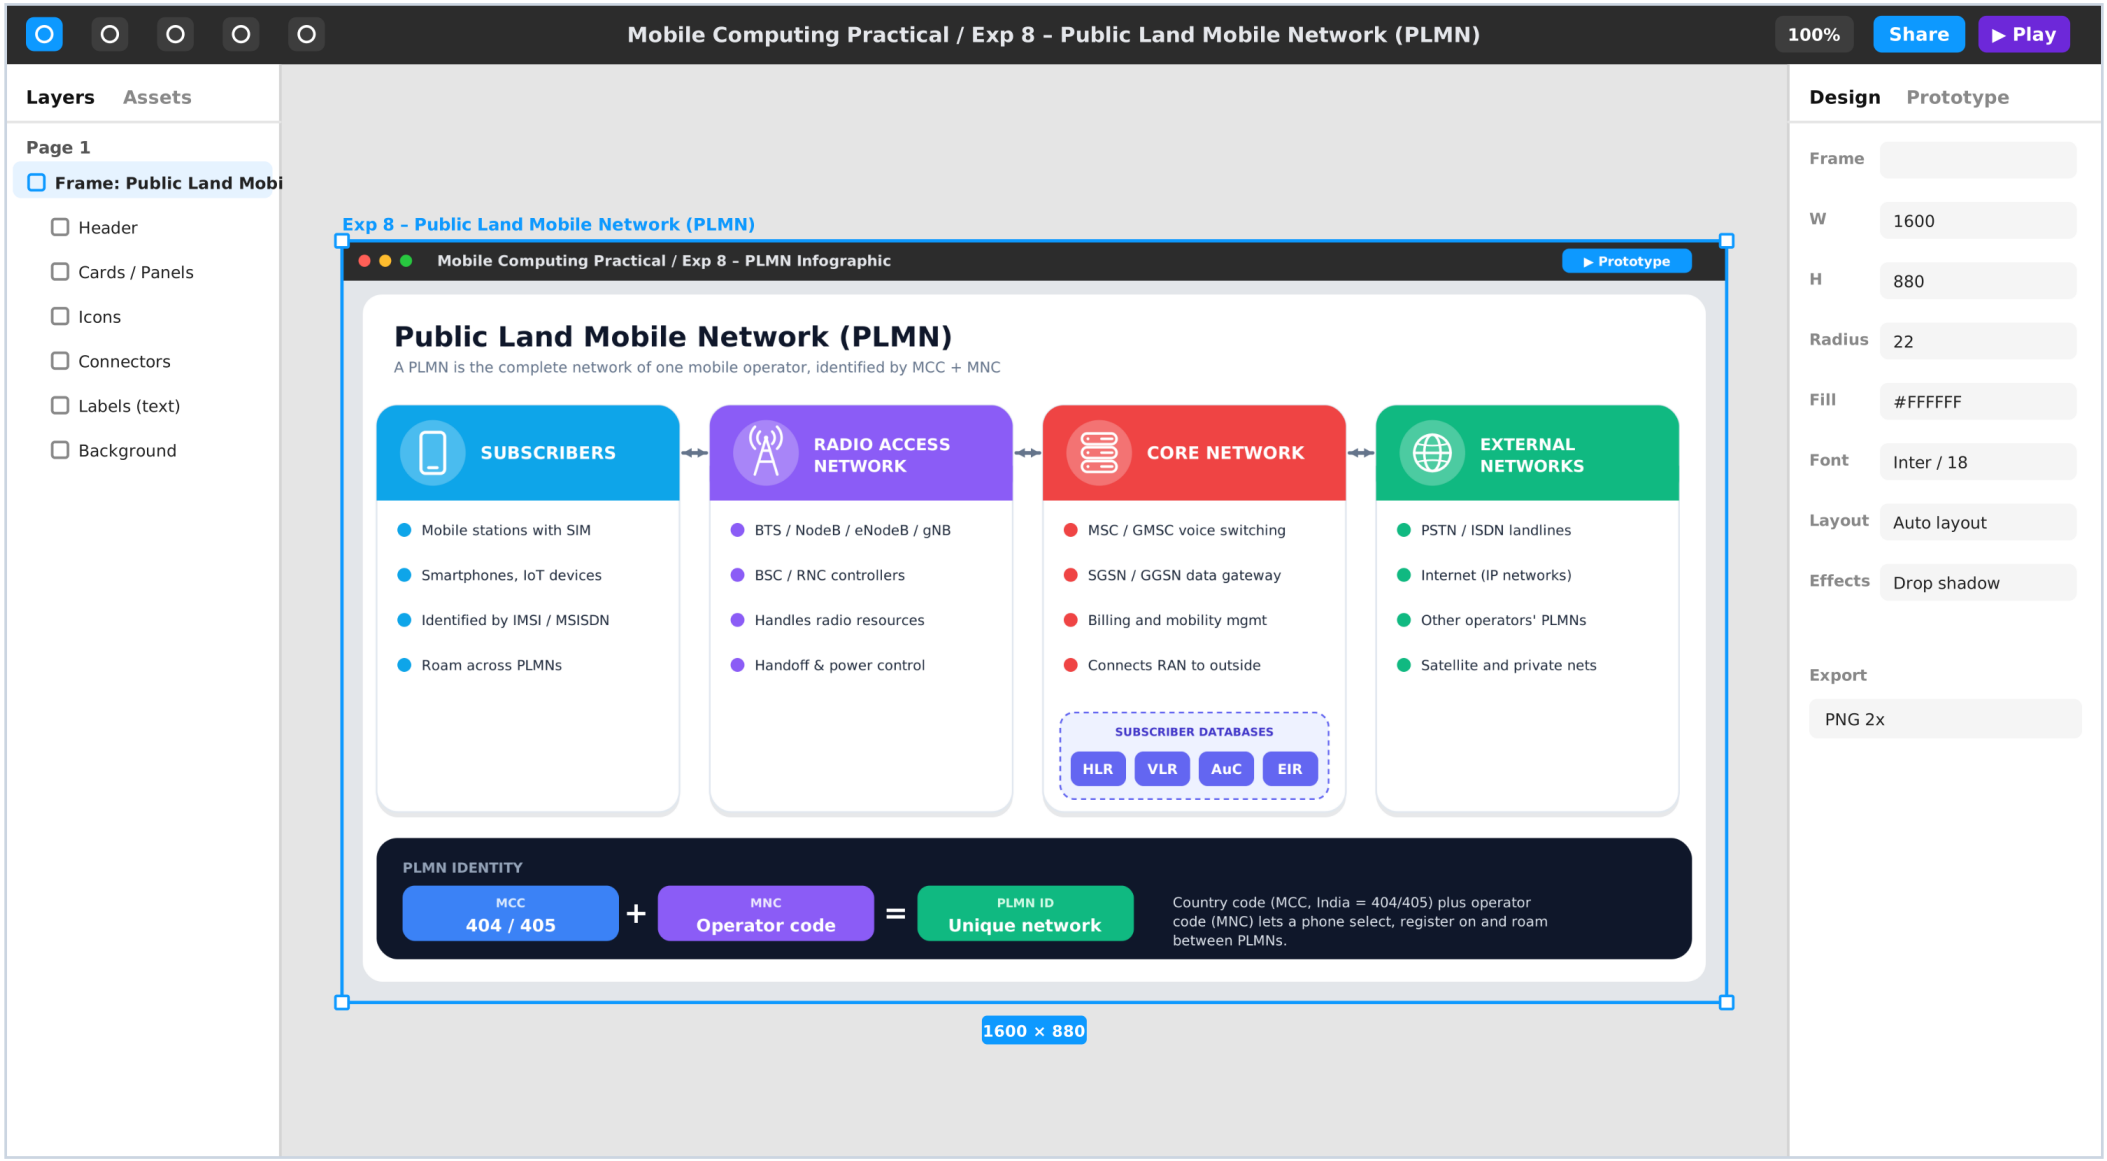

Output (screenshot of the design in Figma):

Experiment 8: Public Land Mobile Network (PLMN)

Question 8. Create an infographic in Figma explaining the concept of Public Land Mobile Network (PLMN).

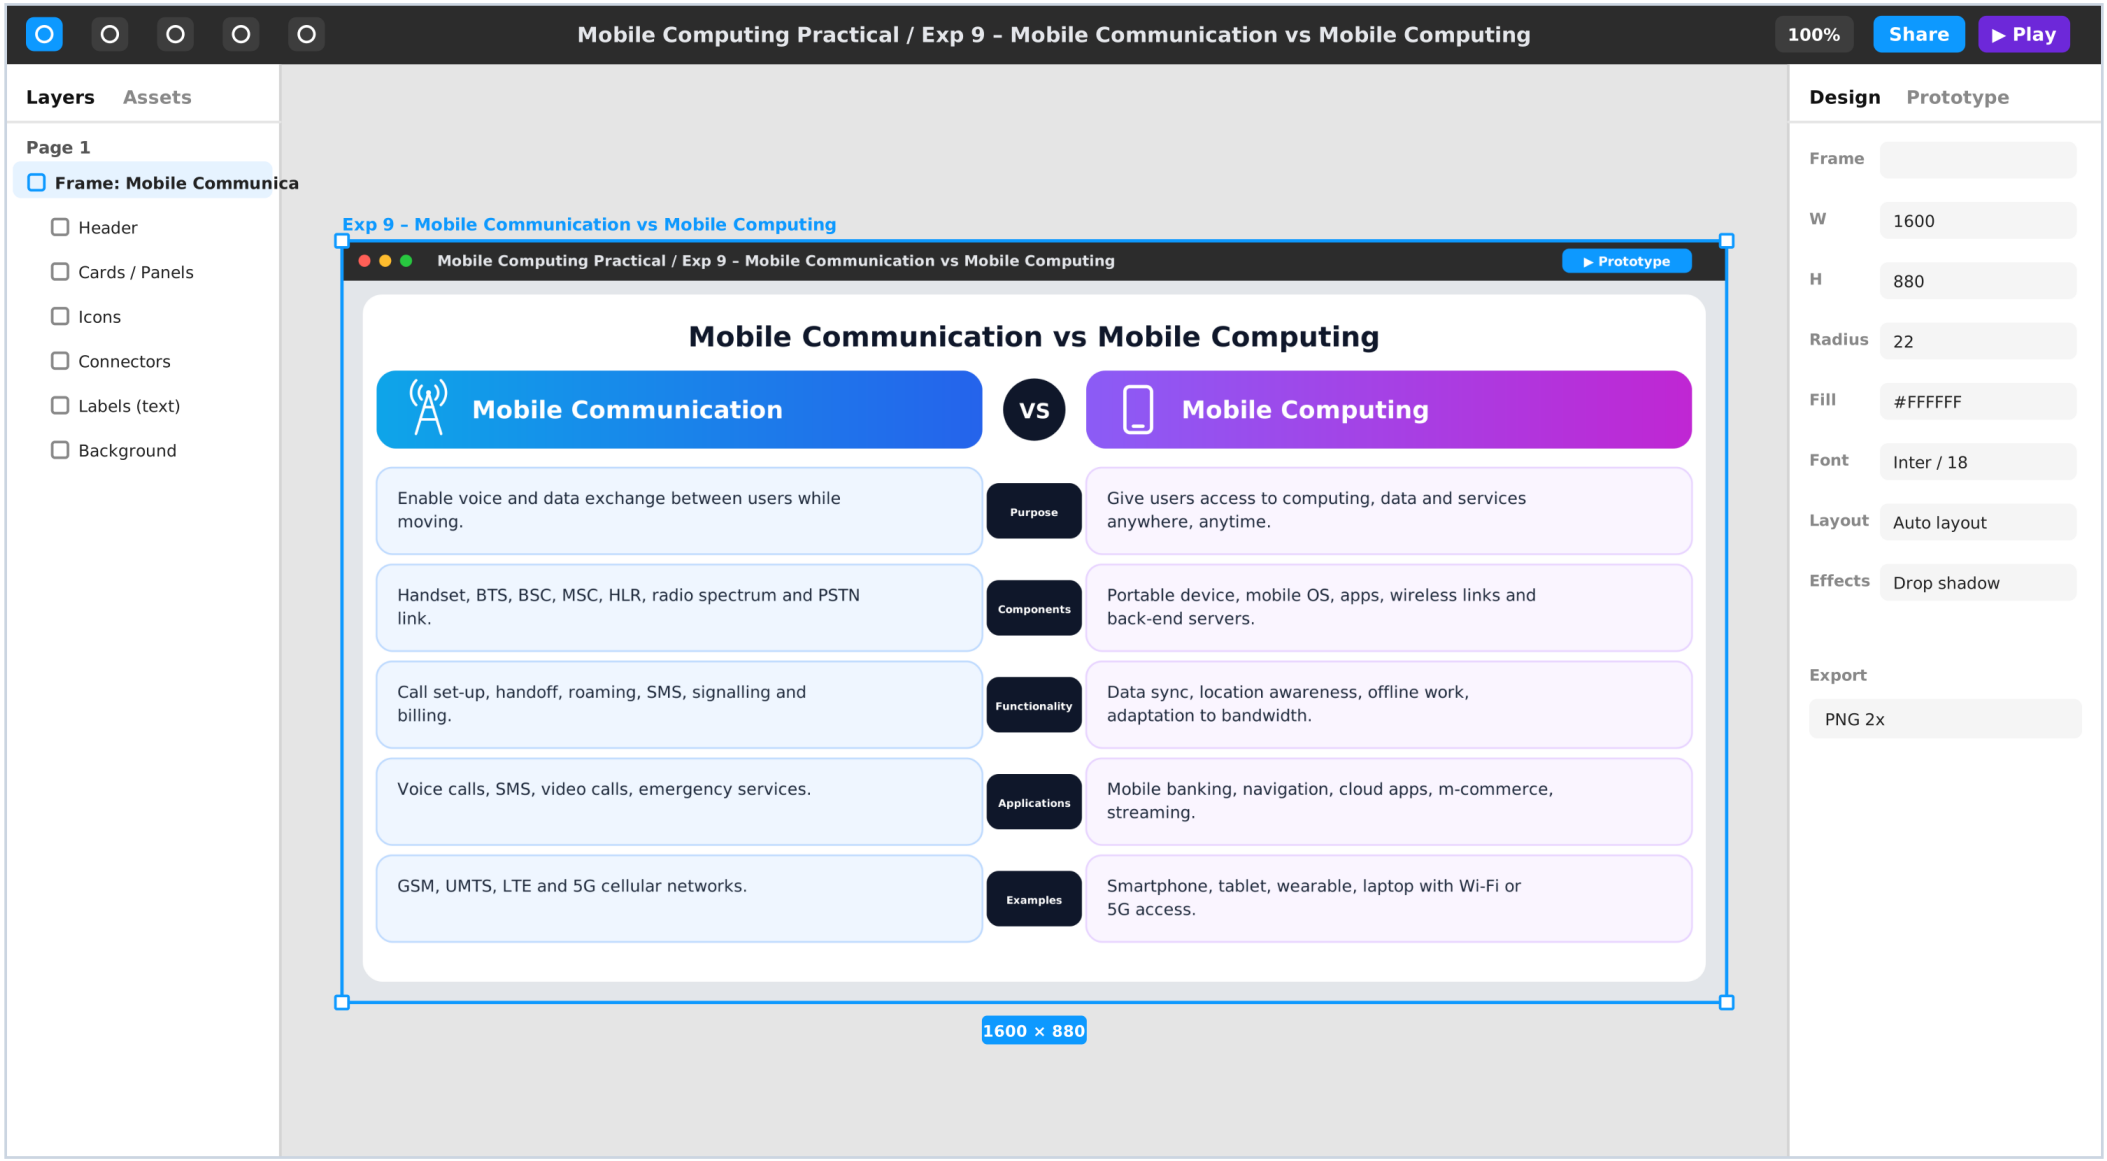

Output (screenshot of the design in Figma):

Experiment 9: Mobile Communication vs Mobile Computing

Question 9. Design an infographic in Figma comparing mobile communication and mobile computing.

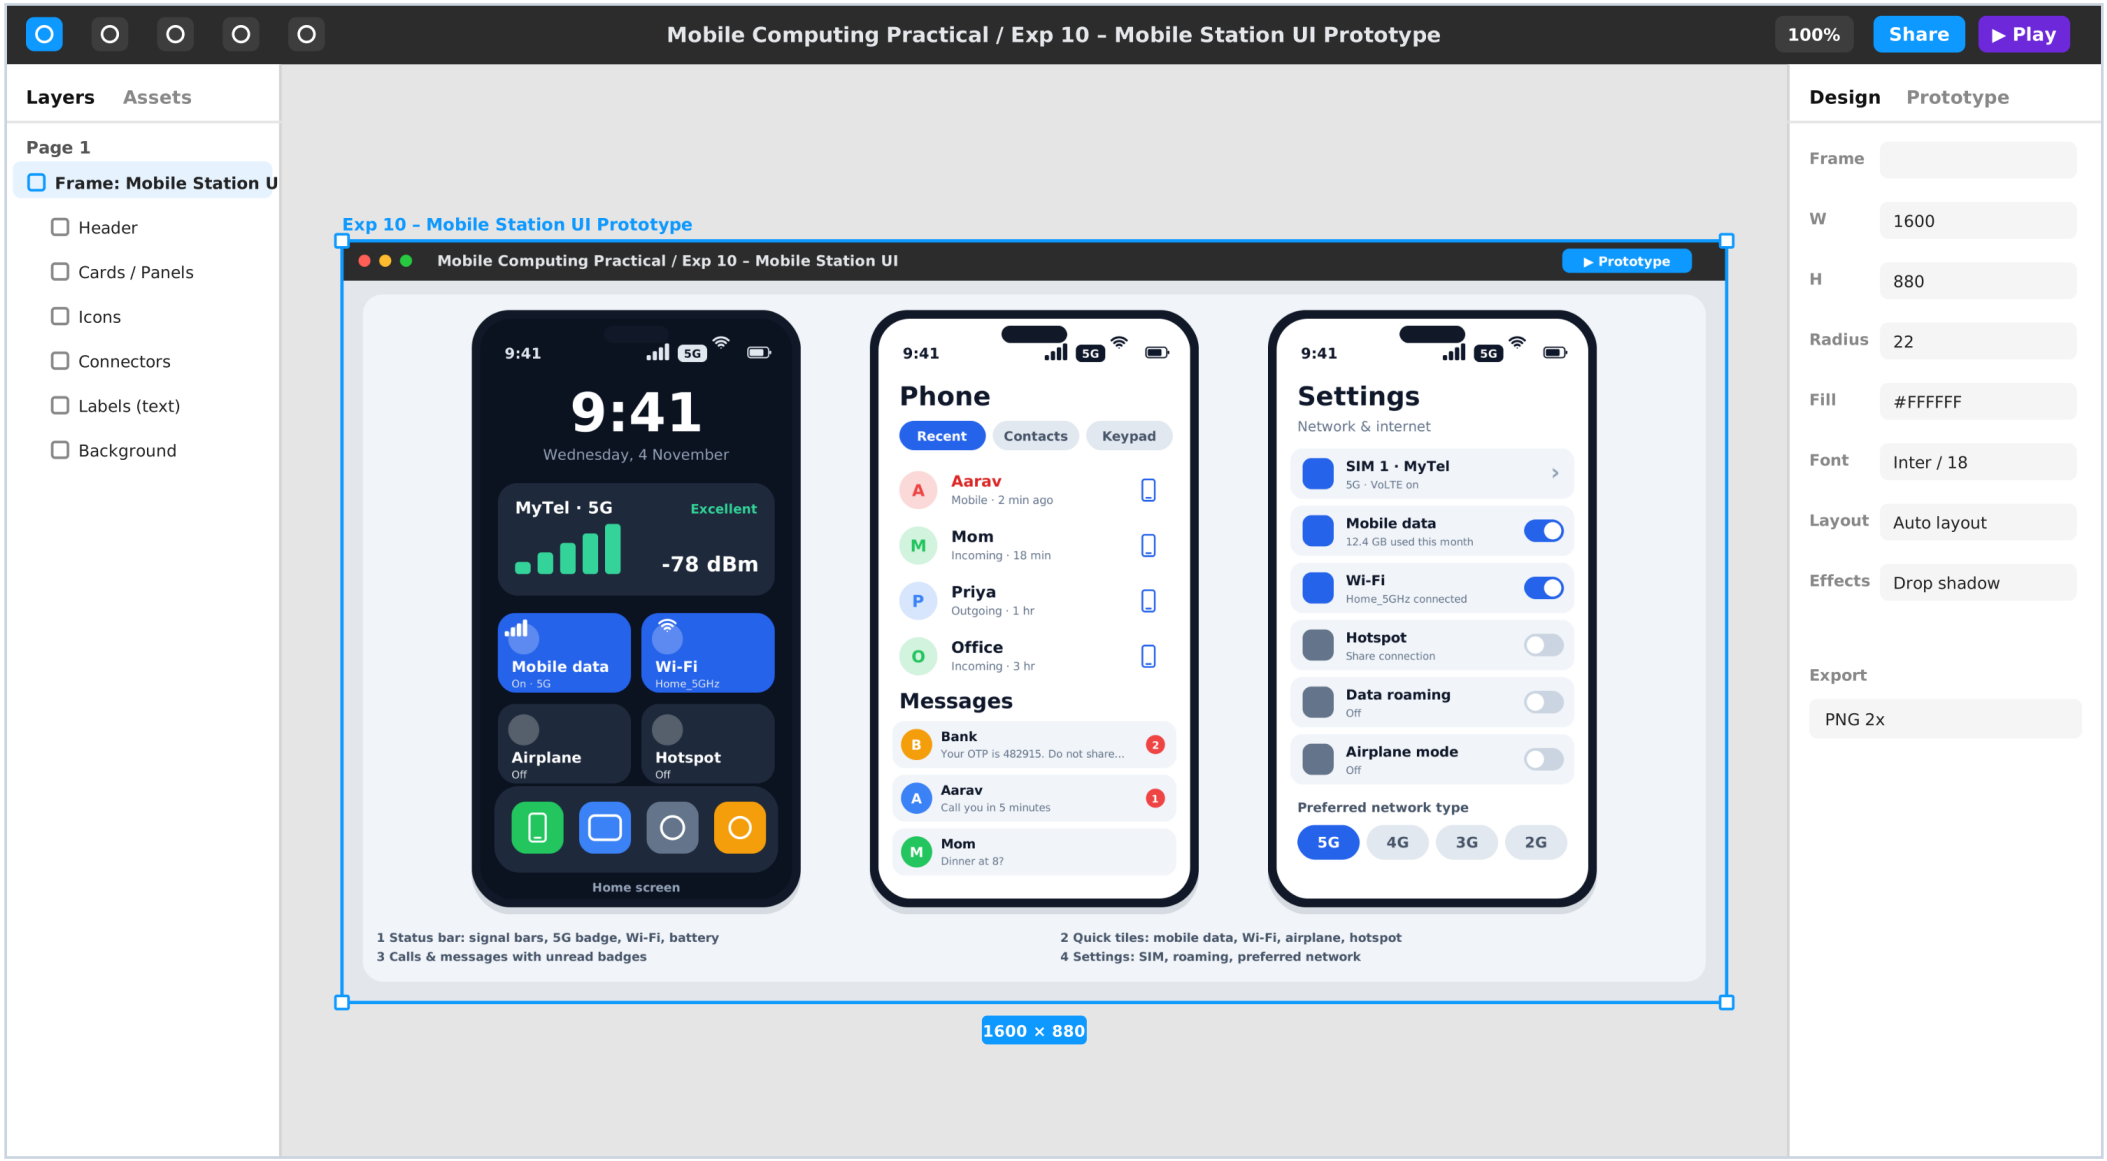

Output (screenshot of the design in Figma):

Experiment 10: Mobile Station UI Prototype

Question 10. Design a user interface prototype for a mobile station using Figma, considering connectivity and convenience.

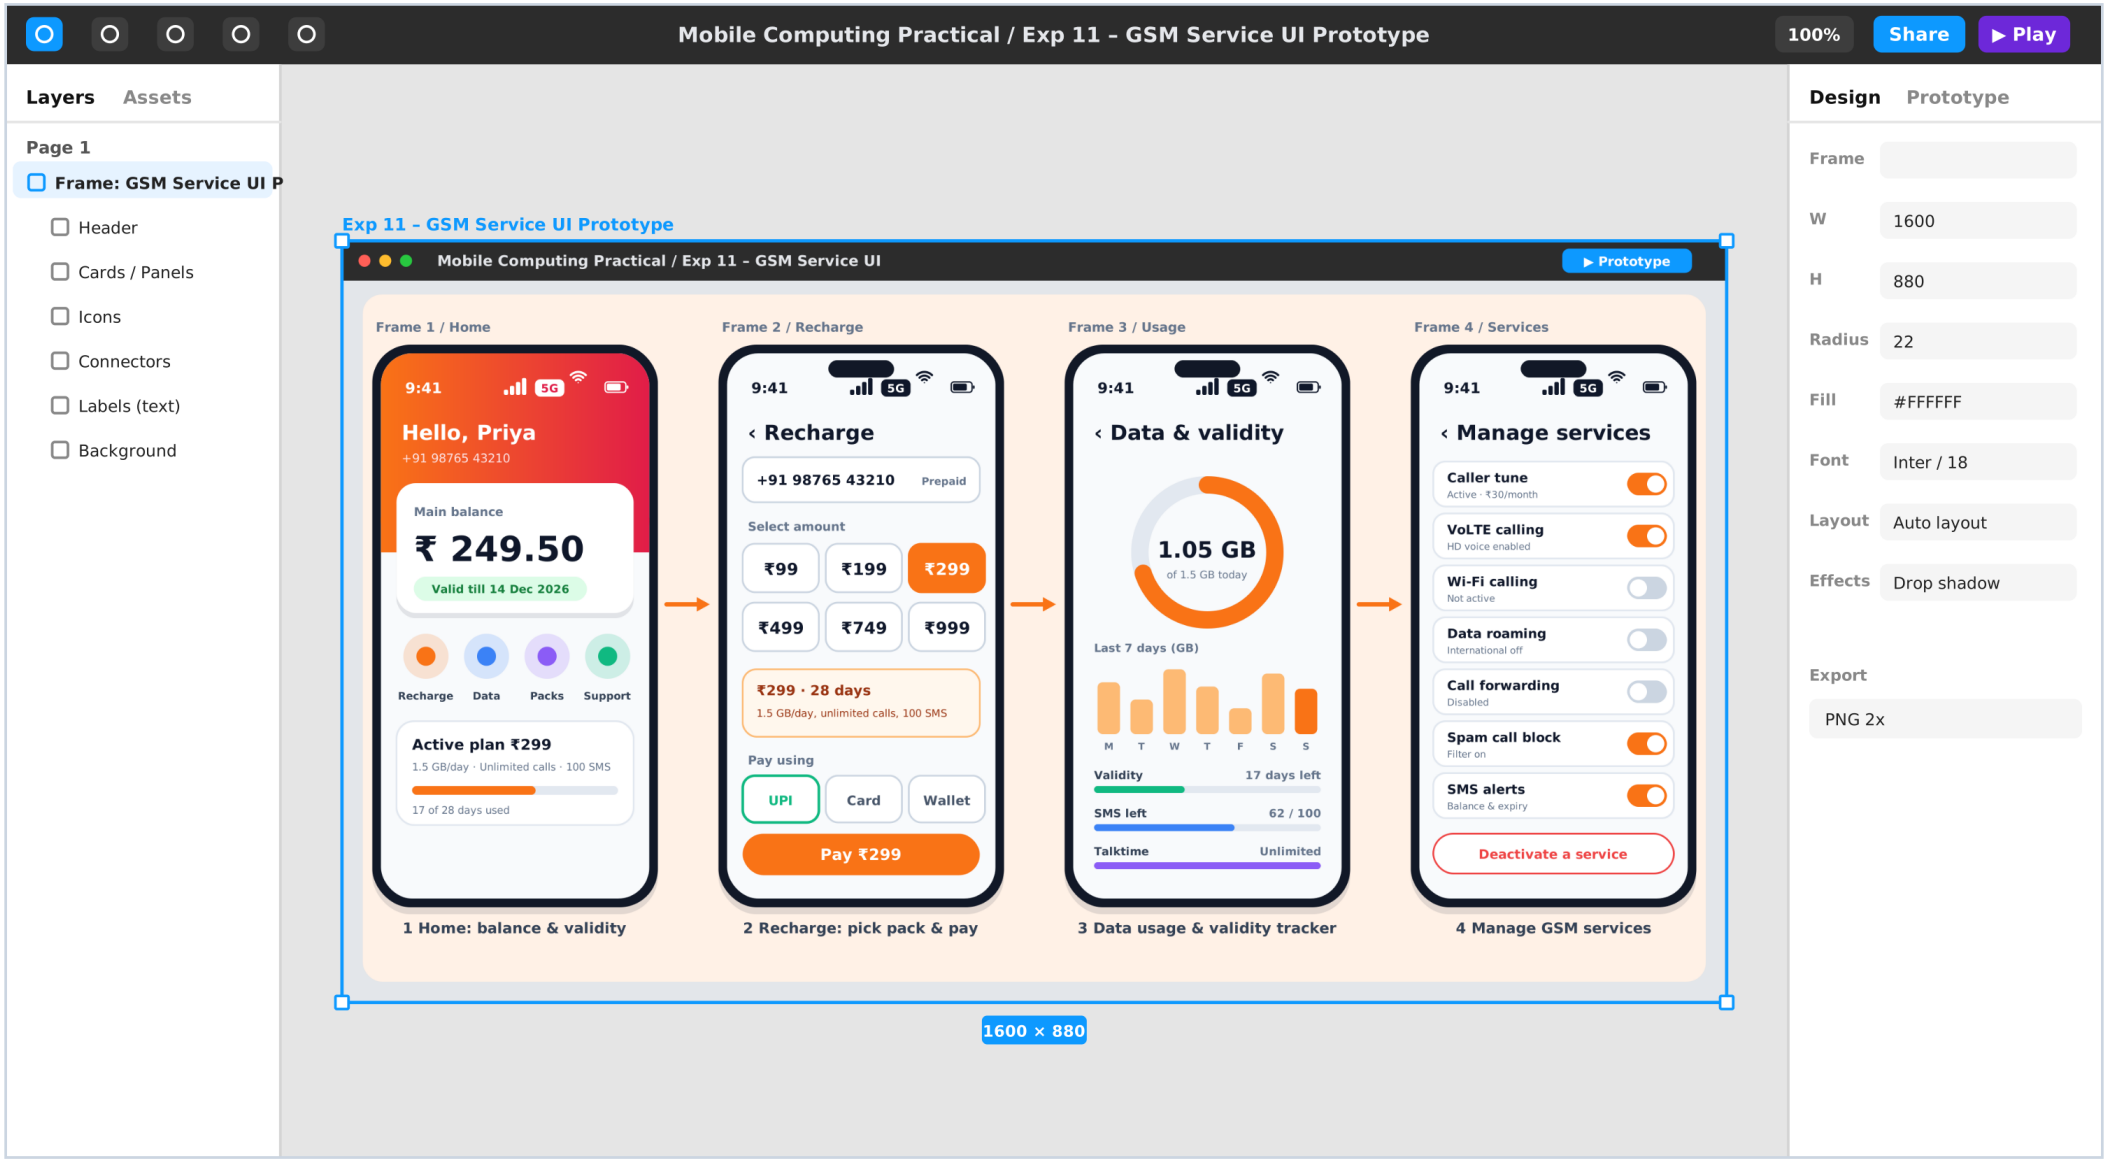

Output (screenshot of the design in Figma):

Experiment 11: GSM Service UI Prototype

Question 11. Develop a user interface prototype for a GSM service using Figma.

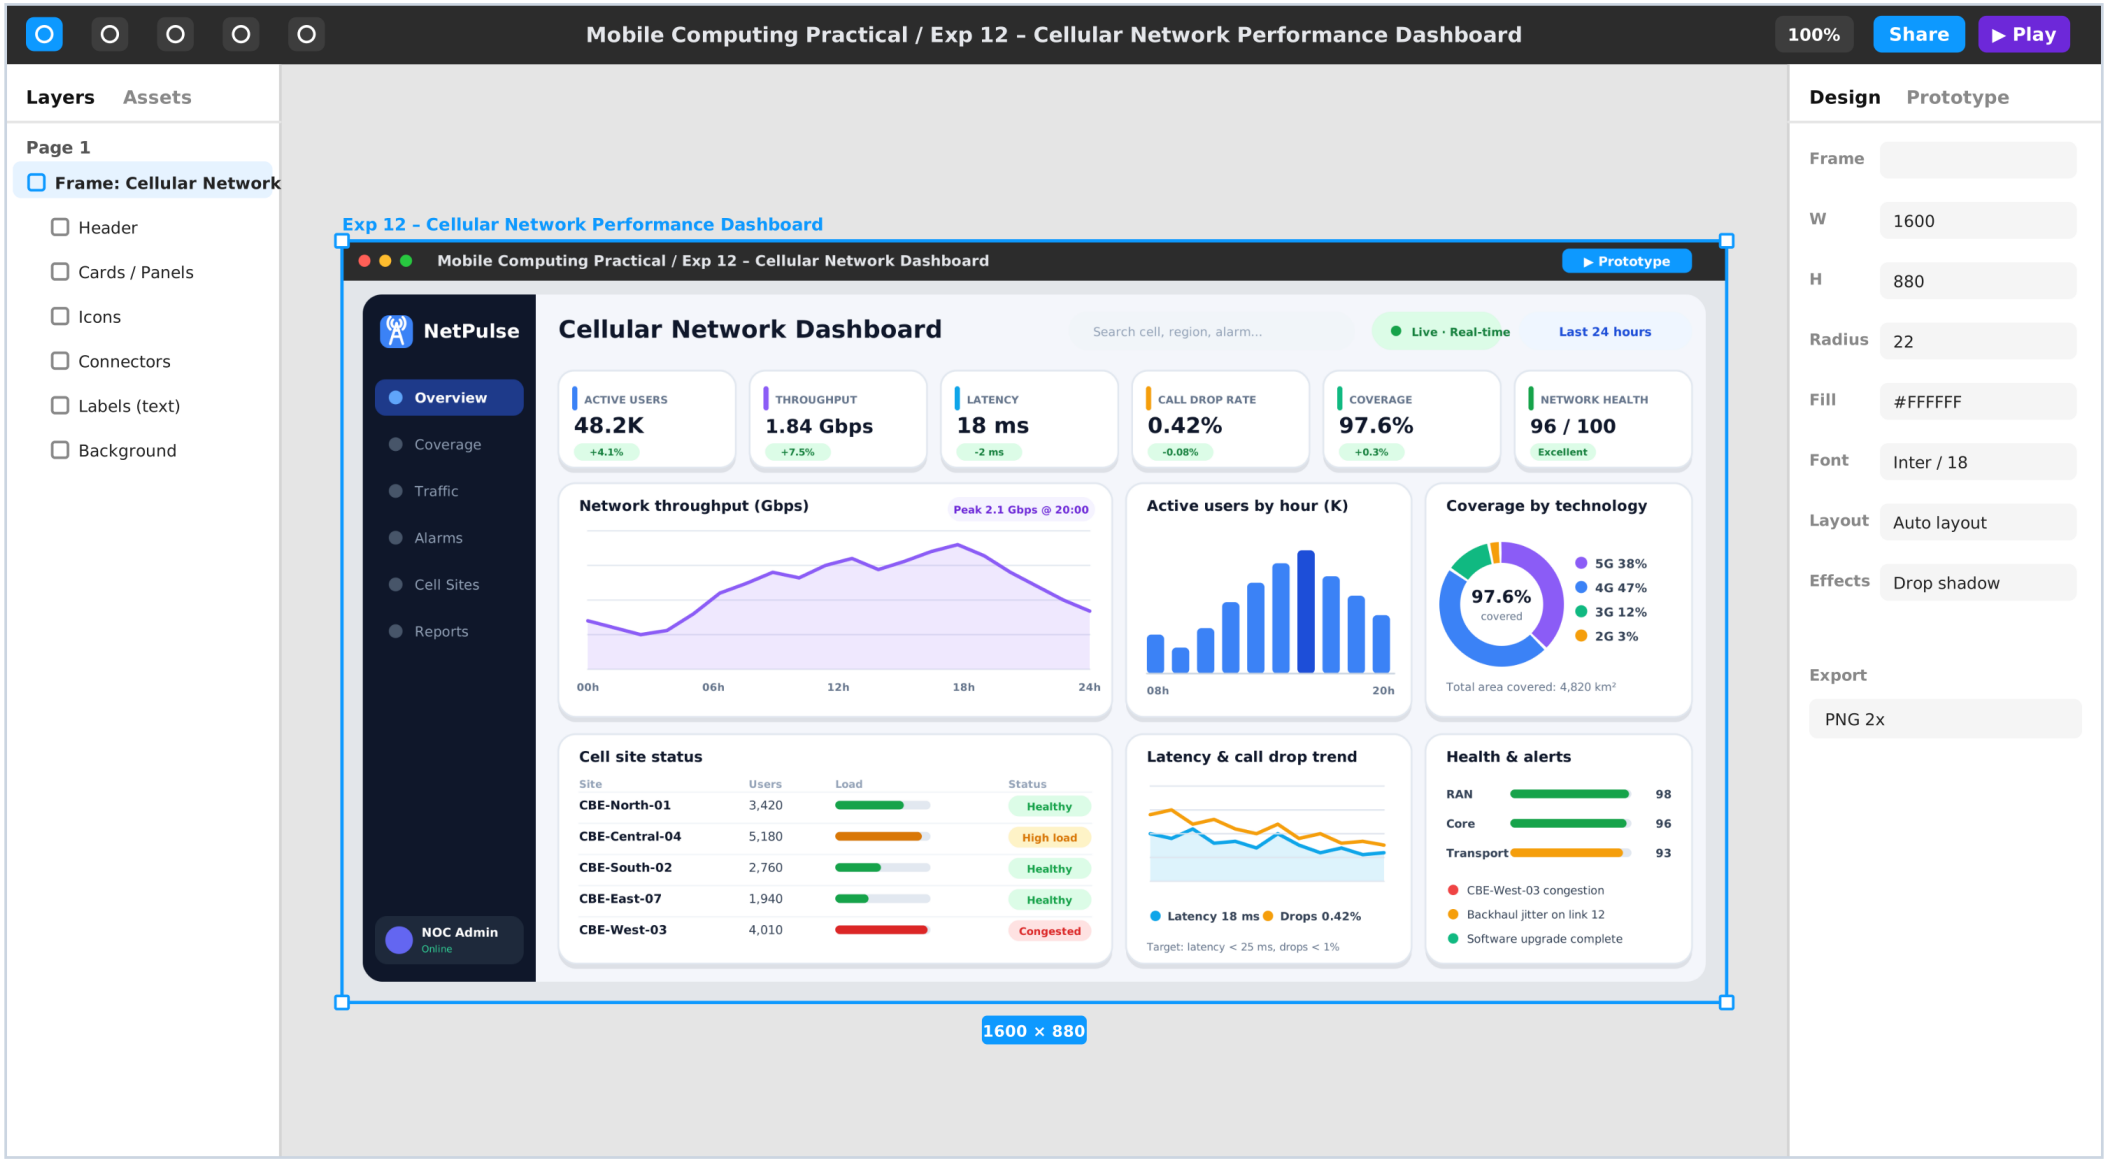

Output (screenshot of the design in Figma):

Experiment 12: Cellular Network Performance Dashboard

Question 12. Develop a dashboard prototype in Figma displaying performance criteria for a cellular system.

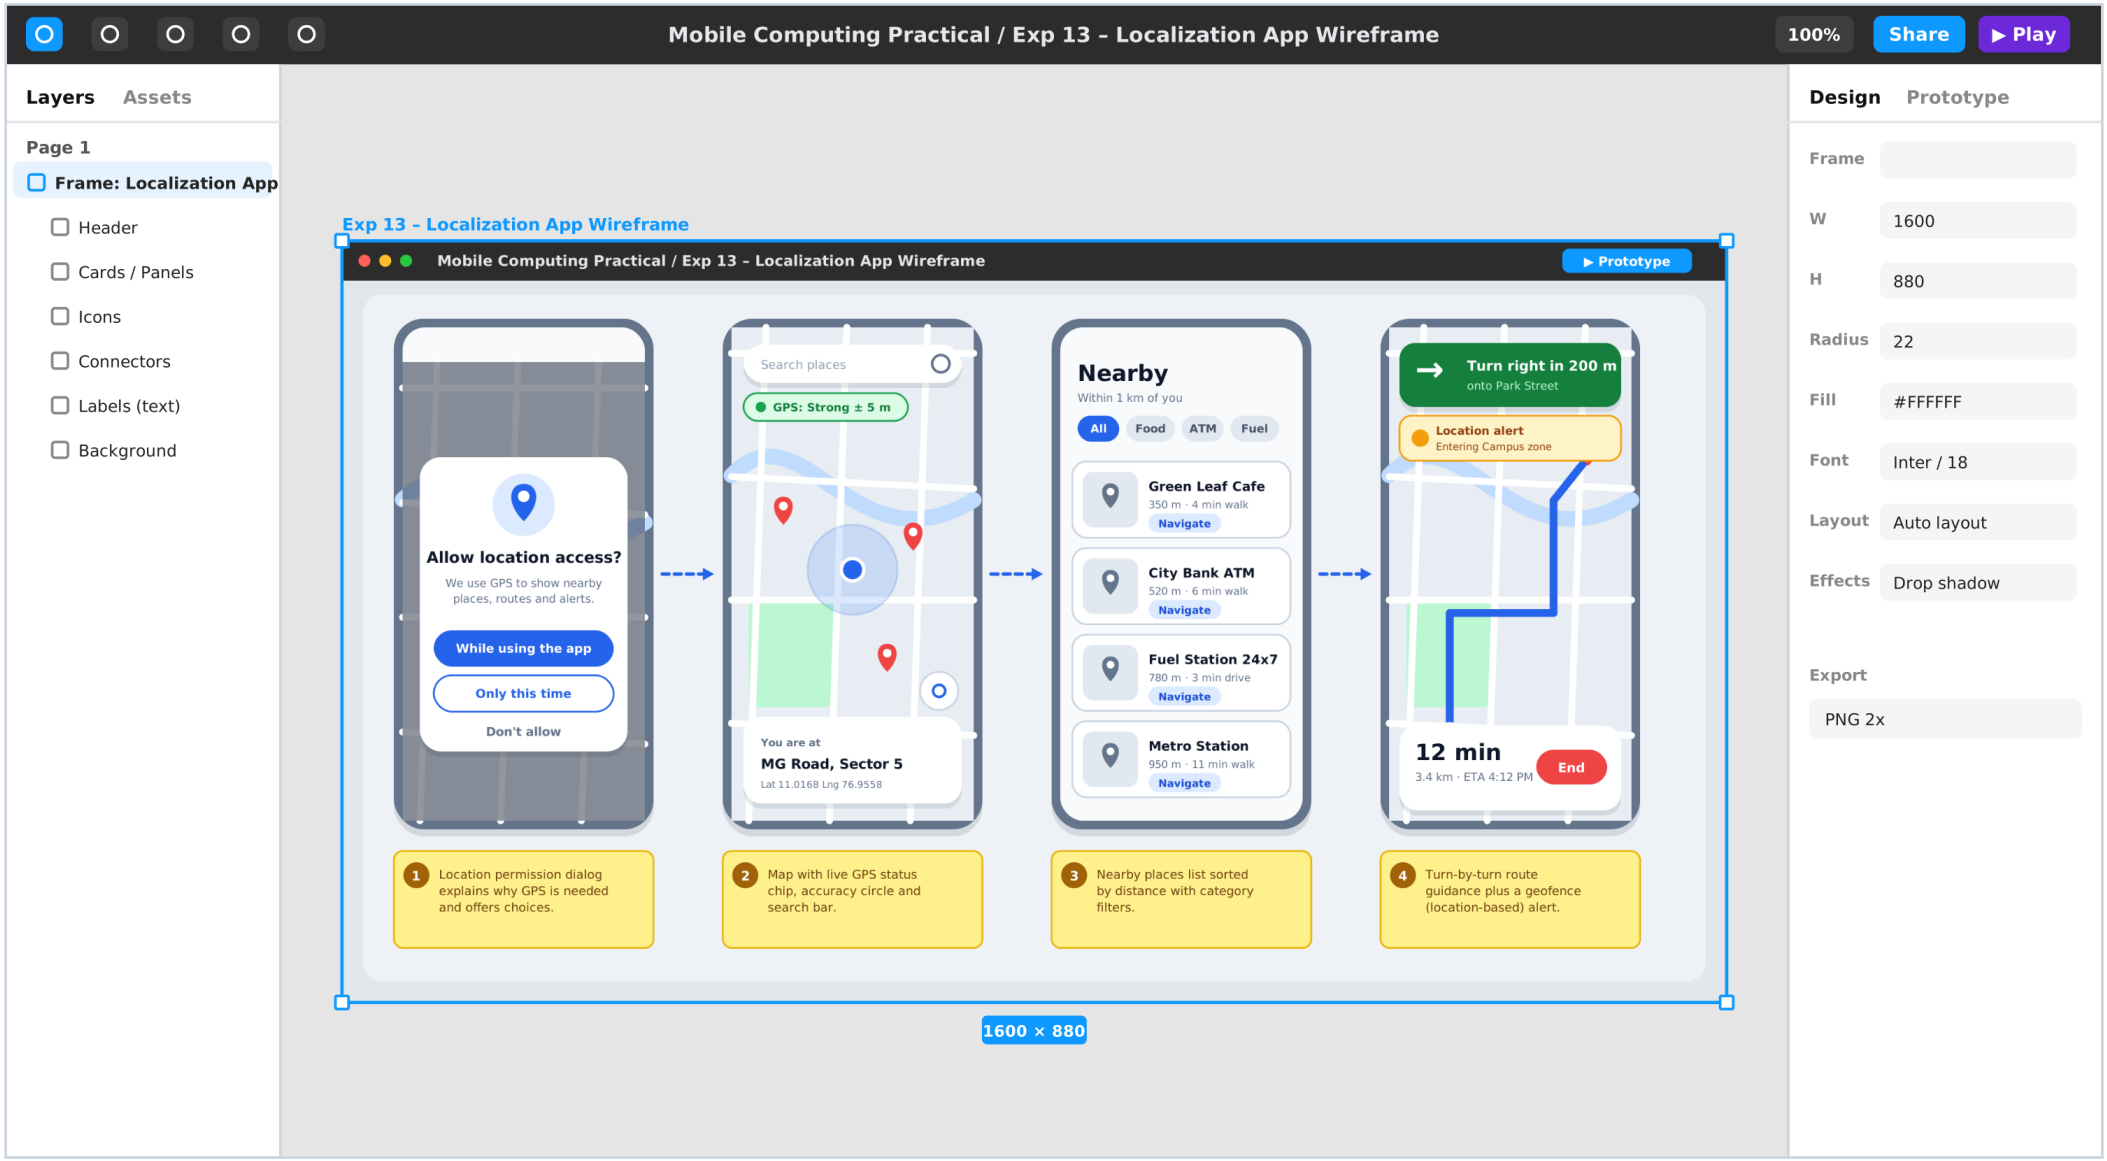

Output (screenshot of the design in Figma):

Experiment 13: Localization App Wireframe

Question 13. Design a wireframe for a mobile application that incorporates localization features using Figma.

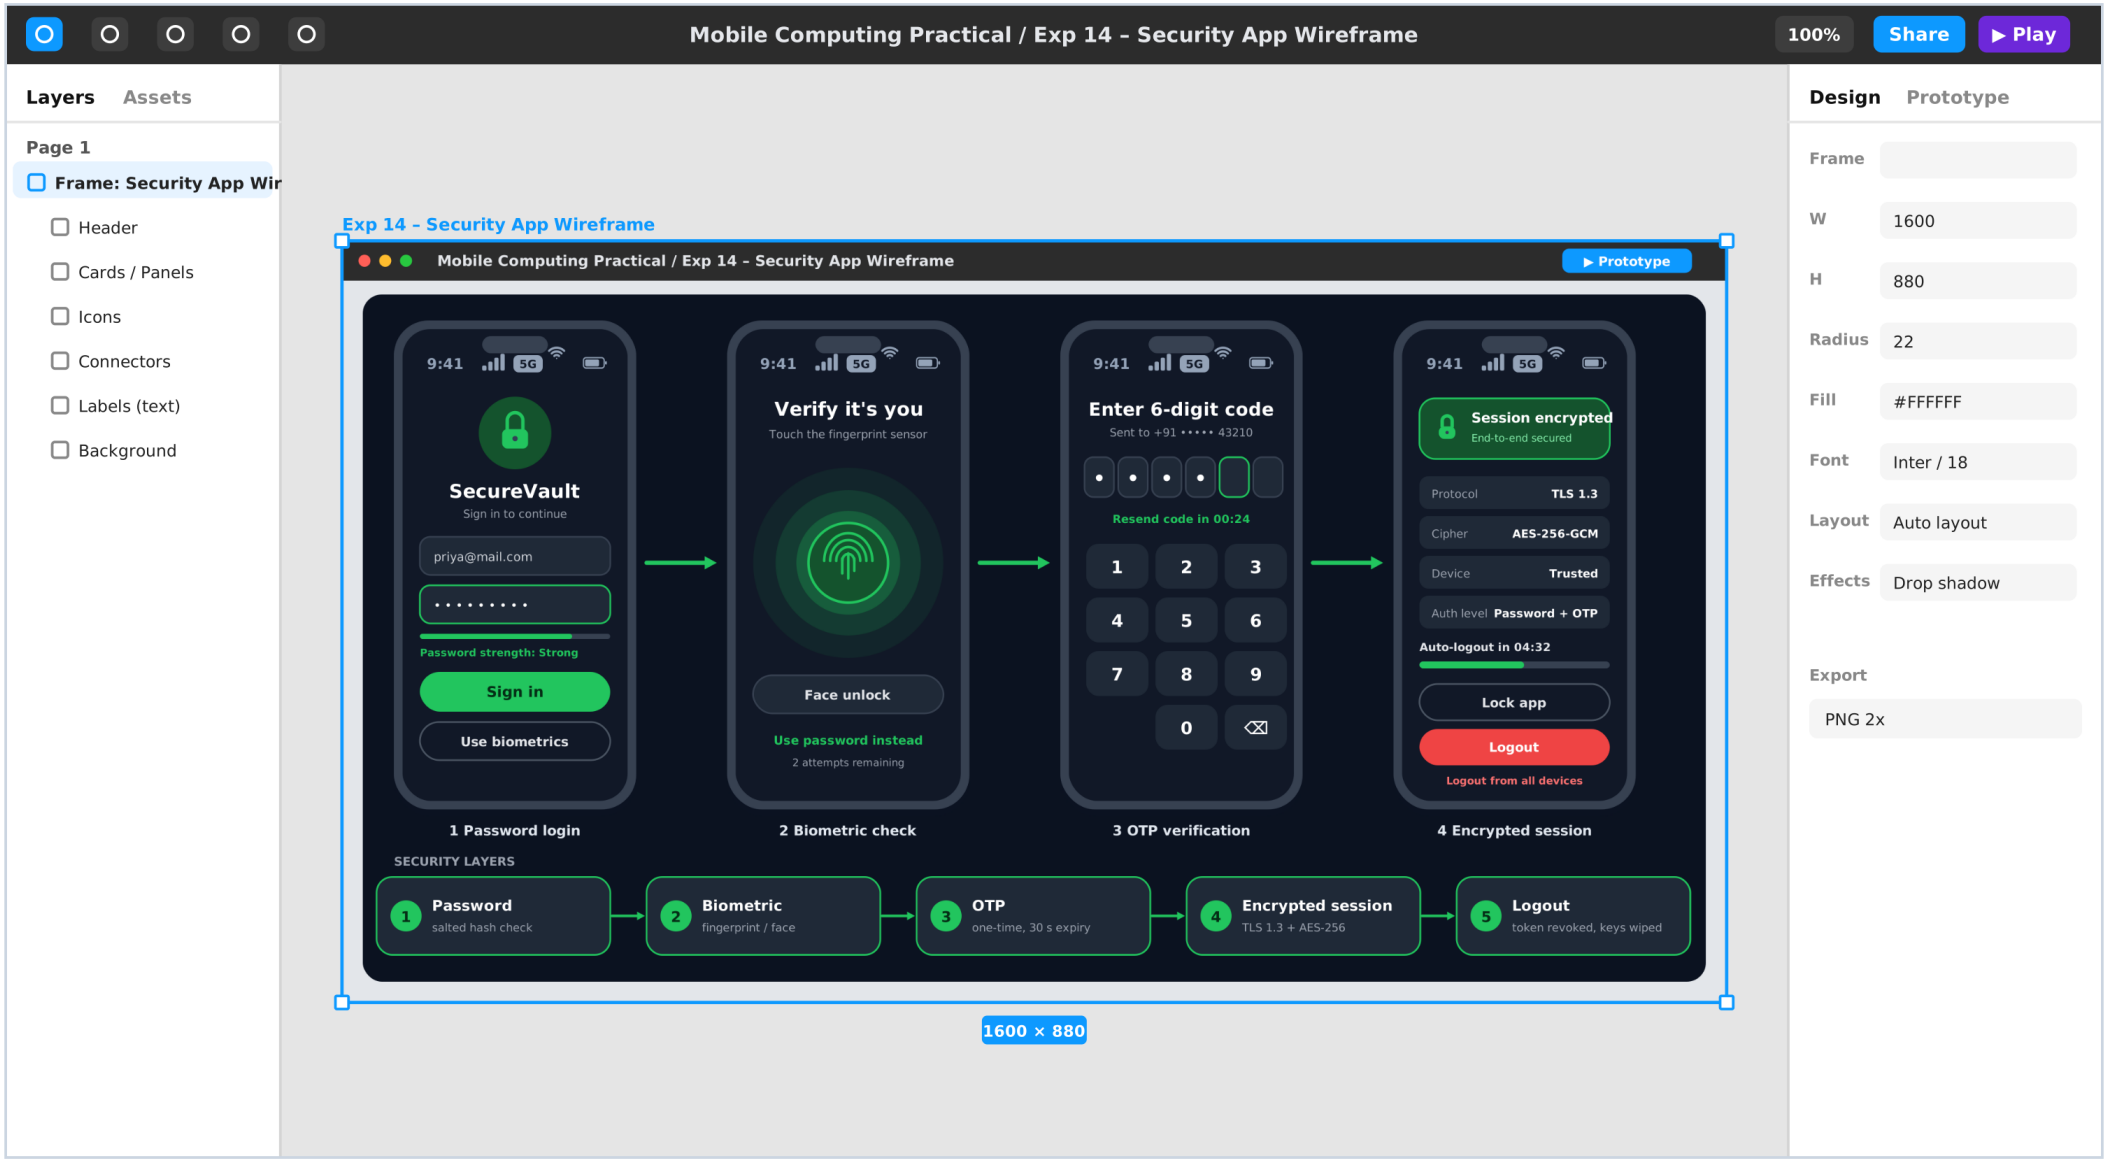

Output (screenshot of the design in Figma):

Experiment 14: Security App Wireframe

Question 14. Design a wireframe for a mobile application that incorporates security measures using Figma.

Output (screenshot of the design in Figma):

Experiment 15: Ad Hoc Wireless Network App

Question 15. Develop a wireframe for a mobile application that addresses challenges related to ad hoc wireless networks using Figma.

Output (screenshot of the design in Figma):
